This Bum Bum cream can go anywhere, but you better believe it's great for your butt!

Made with cupuacu butter, acai, and coconut oil, it's fast absorbing and ideal for all types of skin, tightening and smoothing with every use.

This flash mask is amaaazing. Not only does it exfoliate and refine my skin, but it lifts it as well. It's my go-to when I want a mask that soothes and hydrates without having to wait the normal 20 minutes of traditional masks!

Say goodbye to puffy, fatigued, and dry eyes. This FlashPatch by Patchology is loaded with caffeine and collagen to guarantee a rested, full-eight-hours look. This is the perfect mask for that summer refresh!

Saz Tips

Simple & powerful ingredients make this an amazing summer cream to nourish skin after long days in the sun. Apply generously and smooth all over!

Use when you're feeling dull, lackluster, or otherwise uneven. With Licorice and Grapefruit Seed Extracts, this mask gently brightens your skin so quickly!

Sometimes summer can mean late nights and long days, and that means puffy, tired eyes. I recommend saving this for when you need a little love for your under eyes or just want to refresh!
