Something Stylish

Vici Collection Pom Beanie

Retail \$20

During the colder months, I believe a stylish beanie can go a long way in your wardrobe. You can instantly spice up any outfit while keeping your head warm at the same time. What's not to love? P.S. I'm a sucker for poms.

Styling Tip

For a simple but chic look, try pairing this cozy beanie with black skinny jeans and a pretty cream sweater!

This hat is going to look the best with your hair down, so I recommend beach waves or sleek straight hair. If you're going to wear it down, try a messy side braid!

Something Cozy

DW Home Vanilla Bean Candle

Retail \$9

This is the candle Stevie was burning in his apartment when we started dating in college. He stole my heart... and so did this candle. I can guarantee you DW will be your favorite candle brand! It's soy so it burns really clean and all their scents are HEAVENLY!

More about DW

This candle is guaranteed to warm up any room in your house. I love lighting mine in our living room or guest room.

DW Candles are handpoured and burn really clean. Plus they smell amazing, even without lighting it!

Something Sweet

NibMor Drinking Chocolate (Original & Spiced)

Retail \$5

Chocolate lovers...brace yourselves. This is the most delicious, organic, non-GMO, non-gluten, vegan drinking chocolate I've ever had! I love spicy anything so I had to throw in an extra pack.

More About NibMor

NibMor sources only the best chocolate! Ingredients are organic, fair trade, and non-GMO.

I love NibMor's story! It was started with a passion for delicious, good-for-you chocolate, and went from a tiny NYC kitchen to a full blown Wonka-style factory!

Something Bless

Bless Ceramic Mug + Spoon (A Bonus!)

Retail \$9

Say hello to a very special gift, made especially for you. :) This ceramic mug is a limited edition keepsake, and I hope you absolutely love it!

Serving Ideas

This mug is perfect for enjoying hot cocoa, late night ice cream, or even for letting the kids play with their cereal.

Clean up is easy and the ceramic mug & spoon are totally dishwasher safe.

Something Rejuvenating

Aveda Travel Sized Hair & Body Goods

Retail \$38

(\$16 - \$9 - \$6.50 - \$6.50)

This body creme makes me happy! It's super rich and has essential oils to help rejuvenate and relax the senses. It's petite yet powerful!

Saz Tip

A little goes a long way. Throw it in your bag and take it with you on the go or in your carry-on!

I have been using the full-sized version of this product for almost a year & can say it's my absolute go-to styling product. It defends against humidity for up to 12+ hours & feels super light on my hair. I'm obsessed!

Saz Tip

Use this product when your hair is wet before heat styling. I like to apply it to my roots and ends right before I blow dry.

Cold winter air can make my hair brittle, dry & fragile. It can also increase the static - that means more flyaways and frizzy hair days. If that's you, I recommend you try this shampoo & conditioner.

Saz Tip

I've used the conditioner as a shaving cream too and it's awesome. Super smooth and instantly softens my skin.

Something Bold

Maybelline Inti-Matte Lipstick in Brown Blush

Retail \$7.49

This is the most wonderful time of year to play up your makeup and rock a bold pop of color all season long. I handpicked the perfect shade for you that will make your lips blush!

Beauty Tip

Rock this warm creamy lip color with colors in your wardrobe that are similar (ie. cream, blush, burgundy, camel..)

You can wear this lipstick with no eye makeup for a "model off duty" look or dress it up with a bold smoky eye. You can do no wrong!

Something Healthy

Kálos After Hours Soothing Night Cream

Retail \$44

Say hello to a product line friendly for all skin types. I absolutely love Kálos. Not only do they make amazing organic products, but they also set a serious standard for business. Everything is ethically sourced & produced!

Saz Tip

Kálos partners with non-profits to help educate & empower girls around the world. What a blessing!

I love using this night cream to sooth & protect my skin a few times a week!

If travel a lot (like me), I highly recommend taking this product with you. It will give your skin a serious boost and helps rejuvenate!
