Something Transforming

SK-II Facial Treatment Essence

Retail \$33

SK-II crafts some of the best skincare products in the world. I love this because it conditions, improves and smooths the look and feel of your skin, even in the harshest of climates!

Saz Tip

Place just a few drops of your facial essence into your palm and gently rub with your hands. Then pat directly on your face and neck for even absorption.

I recently did a tutorial on my channel about this product and how it has TRANSFORMED my skin. As a result, my makeup looks noticeably more radiant and glowy!

Something Radiant

Kopari Coconut Body Glow

Retail \$12

Who needs a vacation when you can soak up a healthy glow in a bottle? I LOVE this light-weight shimmer oil & how it instantly gives my skin a sun-kissed glow. The scent is light & uses high-grade coconut oil formula to improve the skin's moisture absorption. Yes, please!

Saz Tip

I love applying a small amount directly over my collarbones, shoulder blades & arms for that little extra glow!

If you're wondering what to wear to show off your body glow, I recommend great summer pieces like off-the-shoulder dresses, plunging necklines, and/or spaghetti straps! :)

Something Shiny

ColourPop Sookie Ultra Glossy Lip

Retail \$6

I hate lip glosses. Said NO GIRL EVER. This is the definition of an amazing lip gloss that can last for hours and isn't sticky. I love the high-shine and pigment - perfect for spicing up those fresh-faced days!

Saz Tip

If you prefer a matte base, apply a lip pencil or basic matte lipstick before use. For a natural finish, gently blot lips with your fingertip to remove excess gloss!

Try matching your eyeshadow with this lip color. Keep the eyes simple by skipping the eyeliner and applying little mascara. We want the lips to be the center of attention!

Something Bold

ColourPop Sookie Ultra Matte Lip

Retail \$6

Matte fanatics - brace yourselves! I can't get enough of this mauve shade. It's the perfect light shade of brown for spring. I am obsazzed with the fact that it literally stays on all day and looks good on every skin tone.

Saz Tip

I always recommend prepping the lips before you apply a matte. Exfoliate by rubbing a warm washcloth over your lips several times, then hydrate with a light coat of your favorite lip balm & apply your matte lipstick!

The pigment is rich so if you have a shaky hand like me, make sure you start with a lipliner to keep you from coloring outside the lines. Only 1-2 coats required, I promise!

Something Stunning

Maybelline Master Strobing Liquid

Retail \$9.99

Strobing is the perfect highlighting technique to instantly give your skin a radiant “no makeup” glow. I love using this product to do just that! The instant pearlescent effect it has on the cheekbones is incredible and it looks even better throughout the busy day!

Styling Tip

Squeeze a small amount into your hand to warm it up, then gently use fingertips to blend & apply in a tapping motion.

For best results, wear it alone or over your fav foundation in key areas (cheekbones, tip of nose, cupid's bow & brow bone)

You can blend a little in with your primer or matte foundation for an all-over shimmer. Great for my girls with dry skin!

This exclusive Bless makeup bag was designed JUST FOR YOU! I teamed up with my pal RongRong Illustrations to create something pretty & practical. Now you have a cute place to store essentials & keep things organized!

Saz Tip

Always store your makeup supplies in a clean & dry place - this will increase the shelf life and keep them from collecting dust & spreading germs in your everyday routine!
